

LTE-PMR multi-mode terminal

Multi-mode terminal

LTE-PMR multi-mode terminal - a device used in professional mobile radio communications.

Main characteristics

Vhf frequency range	136-174 MHz
Uhf frequency range	400-470 MHz
Number of channels	16
Frequency grid pitch	12,5/20/25 kGz
Frequency stability	+/-0,5 ppm
Supply voltage	16,6 V
Battery	10 A/h (Li-Ion)
Working time	not less than 8 hours
Working temperature	From -30 C to +60 C
Sizes	41x172x291 mm
Weigh	3 kg
